After a gap of several years I decided to go back to Snow and Daniel to renew my licence of life. During the entire stay of 10 days in Chiangmai the care and advice was top professional and very personal. After the treatment I feel fresh, lighter and in strong good spirit. One Singaporean friend said I look 10 years younger.....

Snow has „magic“ hands and with gentle stomach massages prepares for the next flush. No time pressure at all. I enjoyed the family friendly style and environment. Daniel explained the medical part and replied my individual questions about my dietary and food plan.

Short and simple morning exercises help to overcome stiffness in the spine, hips and knees. All explained and illustrated in Daniel's latest book.

Overall a very positive and most important experience to be repeated at least once a year.

This is my second fasting with Snow and Daniel,

I CANNOT recommend enough to anyone interested

In REALLY detoxing their bodies and going to the next

Level in life, whatever that might be..

7 DAYS is minimum I'd recommend.

Snow's hands and energy will help coax out blockages on

Many levels.

Much more than just physical detox.

Before actually doing the detox with them, read Daniels

Book the Dao of Detox.

Can't wait till next time.

In Gratitude.

I recall fondly bringing my wife and daughter to one in Koh Samui. We left these two week-long sessions with clear eyes, clear digestive systems and knowledge of how to stay healthy, if we could just exercise the discipline and follow the protocols Dan and Snow revealed to us. I lost 20 pounds of unnecessary weight, my wife lost 15 pounds and looked 20 years younger and my daughter had eyes that 'sparkled like diamonds.'

*These two week-long sessions were transformative events in my life. I have not regained the extra weight and have enjoyed great health ever since completing the course. And these benefits do not include the friends made over 6 days of fasting. Dan, I am so glad that you will soon be sharing this knowledge with others again. Lord knows the world needs it more than ever. **Charles Perry (Atlanta, Georgia)***

The year has been so eventful. Many wonderful positive things have taken place... The most important news is that the three girls here are all extremely healthy – having undergone one of the most incredible life-changing experiences in what must be the most beautiful little place in China, Dali. Three weeks ago we flew to Dali, situated on the plateau leading to Tibet. The air is crisp and perfect. The mountain water which gently flows through the old city, along the little canals which carry hundreds of years of history within their stone walls, is fresh and pure enough to drink.

*Imagine us coming from Beijing , where one must not breathe and must not drink the water, to this bit of heaven. Our purpose for this journey was to meet in person, the famous author Daniel Reid and his reincarnated angel of a wife, Snow. We have been ardent followers of his "thinking" on health, food and life issues for awhile now and when we heard that they would be in Dali, there was no hesitation to bunk school and head off. Our three days with Daniel and Snow changed our lives. We fasted and each day had the colonic treatment. It was incredible. Releasing the past – all the emotional baggage, anything negative that we as humans carry around all our lives, making the road so much more difficult and the load so much heavier, was dumped. In every sense of the word we let it all go, we cleared ourselves out, and we left Dali as completely new people who are ready to renew our lease on life and fully equipped for whatever the next chapter in our lives has in store for us. **Ingrid, Debbie and Chantal Van Ginkel (South Africa)***
